

ΦΘΚ Advising 101/Five Star Chapter Development

Structure

Phi Theta Kappa has three levels:

- Local level - Campus Chapters.
- Regional level - 29 regions. Each has: Regional Coordinator, meetings, and awards
- International level – Approximately 1200 chapters from around the world.

Describe Phi Theta Kappa as an **International Honor Society for two-year Colleges**.

To print ΦΘΚ, type the letters 'FQK' then change the font to 'symbol'.

You can download the Chapter Resource Manual from the website for advisors and your officers. Your region may publish a Regional Handbook, or have a regional website which will have information on programs, specific to your Region.

Orientation and Induction

- Recruit students to accept membership when they are invited to join. More members = more leaders and more active members.
- Promote Phi Theta Kappa, so students, faculty, administration are aware of the organization.

Five Star Chapter Development Program

- Guideline for specific activities to ensure excellence in Phi Theta Kappa programs.
- Non-competitive—guaranteed recognition!
- The Advisor or Chapter President can complete forms on-line. The goal is set on the first update. Update forms are due **April 30, Sept. 30, Nov. 30, 2007 and First Friday in February**. (If you miss a deadline, submit the form as soon as possible.)
- Use the listing of Five-Star requirements for Chapter officer goal setting and training.

Focus on the Hallmarks

Setting goals and planning activities around Scholarship, Leadership, Service, and Fellowship will make your chapter a valuable asset to your college, and not just another club. Plan a comprehensive program in each of the Hallmarks. Comprehensive means that some activities are for developing members and the chapter, some involve the entire campus, some activities reach into the community, and some have a regional and/or international scope.

New this year: A Program Guide that integrates the Hallmarks called 'Honors in Action'.

The **Scholarship Hallmark**'s primary focus is the Honors Study Topic.

- 2008-10 Honors Study Topic is: "The Paradox of Affluence: Choices, Challenges, and Consequences".
- A timely, international, issue-orientated, interdisciplinary two-year study

The secondary focus of the Scholarship Hallmark is tutoring, mentoring, and recognizing scholarship of faculty and students.

The **Leadership Hallmark** has the primary focus of taking leadership roles on campus, in the community, and with Phi Theta Kappa. The secondary focus is to provide leadership training and development for members, students and community.

The **Service Hallmark** has the primary focus of the International Service Program.

- 2008-10 Service Program is "Operation Green: Improving Our Communities".
- Four focus areas: Education, Recycling, Beautification, and Clean-Up.
- Register at www.ptk.org to become a Chapter of Service and report your results.

The secondary focus of the Service Hallmark is other service activities involving campus, community, regional and/or International Service.

The **Fellowship Hallmark** should be incorporated into the other Hallmarks. Plan Fellowship Activities and then incorporate leadership, scholarship, or service activities into the event (for example, a dance with an environmental theme or have the entry fee be a canned good or children's book).

Hallmark Awards

- Your chapter can enter Hallmark Awards on both the Regional and International levels
- Contact your Regional Coordination for information on entering Regional Awards. Your chapter could win a scholarship for the Honors Institute (valued around \$900).
- When the Int'l Service program and Honors Study Topic changes in one year, the next year's entry can use examples from both topics.
- Information, entry forms, tips, sample entries, and judging rubrics are available online for International Awards.

Simplify the Hallmark Award Entry Process

- Immediately after you set your goals; write up a narrative on your goals (and the process you used for setting the goals) for the Hallmarks of Service, Scholarship and Leadership—keep in mind the major and minor components of each Hallmark as you write up your goals.
- Also, as soon as you complete an activity, write up a thorough description of the activity and a paragraph on the outcomes of the activity--including quantitative data (how many people attended, how much money raised, how many hours volunteered, how many members involved, etc). Also include subjective data (comments, quotes that show impact the event had on a person's life).
- When the time comes for Hallmark entries, you should have much of it written
